

If you think your truck deserves the very best, we're on your side.

"My truck has taken 1st place in several contests. I use products that deliver appearance and performance. That's why I only use Vortex. It's simply the best. I've seen some look-a-likes that try really hard to be Vortex, but none of them come close."

Greg Shupe, Tri-State Commodities, Greeley, CO

Tradition Renamed...

Introducing Vortex Air Technology, Inc. Now, carrying on the Vortex tradition of originating air cleaner technologies. Every-thing you have learned to expect from Vortex quality delivered to you with a new name. Still the industry standard doe innovation, classic styling and award winning good looks, the promise continues. Same look, same dependability, new name. What's in a name? Proven performance. What's in our name? A promise to continue the standard.

Smooth, seamless design with no external fasteners

Heavy gauge metal construction for durable strength

All external surfaces receive a #7 buffed finish for the deepest luster available in the industr on a stainless steel product

Single stud design hidden from sight

If appearance, performance and serviceability are important to you, specify Vortex on your truck.
