## SERVICE INSTRUCTIONS FOR VORTOX AIR TECHNOLOGY, INC. BREATHER CAPS

Constructed with materials of either Carbon Steel or Stainless Steel, resistance-welded joints, and filter media choices of polyurethane foam, woven galvanized steel mesh, or woven stainless steel mesh, Vortox Air Technology, Inc.'s line of Breather Caps are designed and engineered for durability and performance under extreme conditions. All models are available in Stainless Steel upon request.

### SERVICE INSTRUCTIONS

Periodically inspect the Breather Cap for an accumulation of dirt. Remove Breather Cap, wash in common detergent, and rinse. Allow media to dry, then reinstall to application.
