

Truck Air Cleaners

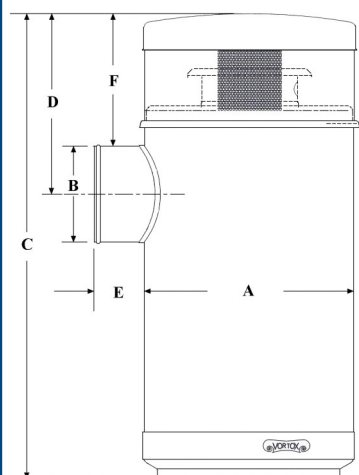

Truck Air Cleaners are available in 13" and 15" diameters that fit Kenworth and Peterbilt trucks (check compatibility). 15" models comply with standard top servicing. 13" models offer easy bottom servicing to avoid frustrations caused by mirror brackets.

When you buy a 15" Truck Air Cleaner you can expect filtration at 99.98% efficiency, over 1600 CFM at 8" H₂O, attention to detail in construction, impeccable finish, and quality craftsmanship. Each Vortox Truck Air Cleaner is carefully handcrafted, using only the best materials (T304 Stainless Steel) and is finished to a highly polished No. 7 buff, which is still unmatched.
